## About WOSA

WOSA brings together globally accredited products and future-ready technologies built on robust platforms such as KNX and Zigbee, delivering reliable, scalable, and intelligent automation solutions.

With over 10 years of expertise in the Home automation Field, WOSA has evolved into a comprehensive technology integration company, combining world-class automation, security, Audio-Visual, and networking solutions under one roof. Our capabilities and solutions can be experienced firsthand at our Experience Center located in the Financial District, Narsingi, Hyderabad.

We offer both wired and wireless automation solutions tailored to residential, commercial, and hospitality projects, ensuring the right technology fit for every requirement.

## The WOSA Advantage

- End-to-End project execution
- Bill of Materials (BOM), solution consulting, and technical presentations
- Proven expertise in delivering successful automation projects
- Integrated solutions covering Automation, Security, AV, and Networking
- Comprehensive training and professional assistance throughout the project lifecycle
- Site surveys, CAD drawings, and 3D design support
- Customized automation solutions based on project requirements
- Seamless execution capabilities for mid-sized and large-scale developments
- Certified technical professionals and KNX experts
- Reliable and responsive after-sales support

At WOSA, we are committed to transforming spaces into intelligent living environments that combine comfort, convenience, efficiency, and long-term reliability.
